

REMARKS

Claims 1-16 are in the application for consideration.

Typographical errors noted in the specification are corrected herein.

Entry of the same is requested.

The Examiner alleges a three way species restriction (or is it a four way species restriction?). The collective identified species are relative to Figs. 7, 8 and 9, although Fig. 8 is stated to constitute a second embodiment as well as a third embodiment. Regardless, claims 1, 6, 7 and 10 are seen to be generic to all stated embodiments. Applicant hereby elects the species represented by Fig. 7. Claims 1, 2, 4, 6-8 and 10 are readable thereon. However in spite of the restriction requirement, it is requested that the Examiner examine all 16 claims in this application at this time.

Respectfully submitted,
